

Navy Lakehurst Environmental Policy

At Navy Lakehurst, we realize protection of the environment is essential to the safe, healthful and compliant execution of our mission and the preservation of the land and its resources. Navy Lakehurst is committed to compliance with all local, State and Federal environmental laws, regulations and policies. We are also committed to preventing pollution at its sources whenever possible. To achieve our goals we have established the following guidelines for environmental management:

- * Integrate sound environmental practices into all our operations and business decisions;
- * Continuously improve environmental performance through use of effective environmental management and planning;
- * Continue implementation of pollution prevention measures and waste minimization programs;
- * Establish quantifiable goals for environmental performance;
- * Conduct routine management reviews to continually assess our progress toward our environmental goals. Update our operating procedures to stay in line with our goals.
- * Educate our employees about their responsibilities to the environment and recognize them for outstanding performance;
- * Continue our partnership with local, state and federal regulatory agencies to sustain environmental compliance with existing and new regulations and guidelines;
- * Increase communication throughout all levels of our organization about our environmental commitments and performance as outlined in our Environmental Management Plan, and
- * Increase our community's awareness of our environmental policies and progress through press releases, public meetings, adopt-a-school programs, and the world-wide-web.
